

# Bug Report:

1. Image of car is Broken at the 5<sup>th</sup> page of Overall Ratings page

## Steps to Reproduce:

- Click on Overall Ratings Tile in the Home page.
- Once in Overall page, navigate to the 5<sup>th</sup> page view

## Expected Result:

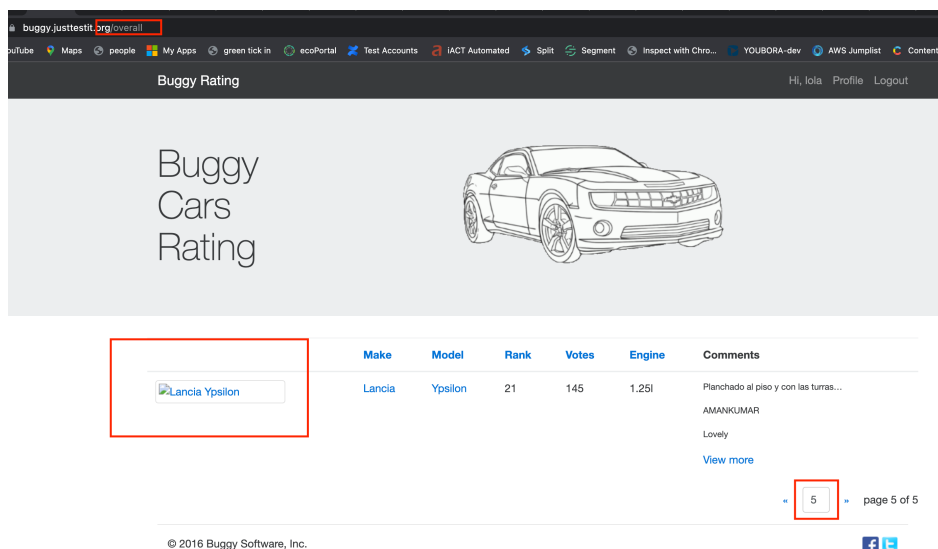

All the images should display correctly

## Actual Result:

You will notice that the image of car is broken

Constantly Reproducible? Yes

Browser: Chrome

## 2. Model page for Stratos is totally broken

### Steps to Reproduce:

- Click on Overall Ratings Tile in the Home page.
- Once in Overall page, navigate on make 'Lancia'
- Once in Lancia make page click on 'Stratos' model

### Expected Result:

- Page should display 'Stratos' model image, its features
- User should be able to vote for the car.
- Using back button or Buggy rating icon on header, user should be able to go back to home page

### Actual Result:

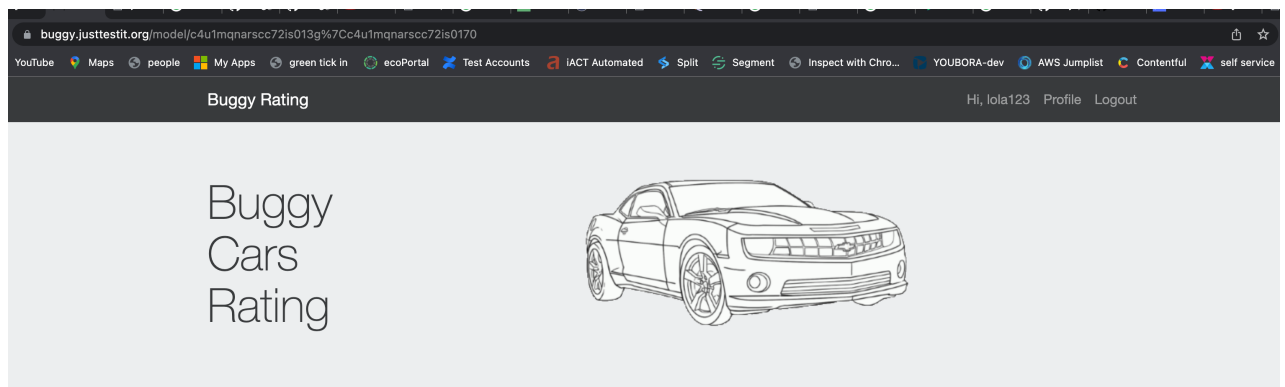

- page is missing Lancia image and description of its features, existing vote count,
- Vote button is not working.
- Clicking back or Buggy rating icon is taking user to a blank page.

Constantly Reproducible? Yes

Browser: Chrome

### Workaround?

Only way to escape from the loop is to go back to home page url and refresh the page.
